**2**

**DOWL**

**NRCE**  
**30<sup>TH</sup>**  
**ANNIVERSARY**

**SYMPOSIUM  
ON THE  
SETTLEMENT OF INDIAN RESERVED WATER RIGHTS CLAIMS**

**MONDAY, AUGUST 12, 2019**

---

5:00 – Early Registration  
7:00 pm

**TUESDAY, AUGUST 13, 2019**

---

7:00 am Registration

8:00 am Western Water Law and Indian Reserved Water Rights: A Primer  
Norm Johnson, Natural Resources Division Director, Utah Attorney General's Office

9:00 am ***Introductory Remarks***  
John Echohawk, Executive Director, Native American Rights Fund  
Tony Willardson, Executive Director, Western States Water Council

***Invocation*** – Chris Devers, Pauma Band of Mission Indians

9:30 am **WELCOME**  
Jeanine Jones, WSWC Chair, California Department of Water Resources  
Bo Mazzetti, President, San Luis Rey Indian Water Authority  
Introducing representatives of the La Jolla, Rincon, San Pasqual, Pauma and Pala Bands of Mission Indians

10:00 am **KEYNOTE ADDRESS**  
Jeanne Whiteing, Water Rights Counsel, Blackfeet Nation

10:30 am Break

10:45 am **NEGOTIATION OF INDIAN WATER RIGHTS CLAIMS: THE BASICS**

**Gathering Background Information and the Role of Technicians in Negotiations**  
MODERATOR – David Gover, Attorney, Native American Rights Fund  
Gerald Lunak, Acting Director, Water Resources Department, Blackfeet Tribe  
Doug Oellermann, Supervisory Civil Engineer, Bureau of Reclamation  
Jay Weiner, Assistant Attorney General, Montana Department of Justice

12:30 pm **LUNCH (ON YOUR OWN)**

2:00 pm **Identifying Parties and Issues and How Negotiations Bind Larger Groups**  
MODERATOR – Arianne Singer, General Counsel, Interstate Stream Commission  
Sara Gibson, Legal Counsel, Oklahoma Water Resources Board  
Joshua Mann, Policy Analyst, Department of the Interior  
Stanley Pollack, Contract Attorney, Navajo Nation

- 3:30 pm Break
- 4:00 pm **WATER PLANNING: SCARCITY AND COLLABORATION**  
MODERATOR – Michelle Bushman, Legal Counsel, Western States Water Council  
Stephen Roe Lewis, Governor, Gila River Indian Community  
Kenneth Slowinski, Chief Counsel, Arizona Department of Water Resources  
Leslie Meyers, Phoenix Area Manager, Bureau of Reclamation  
Kevin Moran, Senior Director, Western Water, Environmental Defense Fund
- 5:30 pm Adjourn
- 6:00 pm Reception

---

**WEDNESDAY, AUGUST 14, 2019**

---

- 7:30 am Registration
- Invocation by Invitation*
- 8:00 am **WELCOME**  
Christina Snider, Tribal Advisor, Governor Newsom’s Office
- 8:15 am **PLENARY SPEAKER**  
Mike Connor, Partner, WilmerHale
- 9:00 am **THE ADMINISTRATION’S SETTLEMENT POLICY**  
**Presentation**  
Alan Mikkelsen, Senior Advisor to the Secretary of the Interior for Water and Western Resource Issues, Department of the Interior  
Pam Williams, Director, Secretary’s Indian Water Rights Office, Department of the Interior
- 10:30 am **Administration Policy Q and A**
- 10:45 am Break
- 11:00 am **Response Panel**  
MODERATOR – Steve Moore, Attorney, Native American Rights Fund  
Arienne Singer, General Counsel, Interstate Stream Commission  
Neil Peyron, Chairman, Tule River Tribal Council  
Vanessa Ray-Hodge, Partner, Sonosky, Chambers, Sachse, Mielke & Brownell  
Norm Johnson, Natural Resources Division Director, Utah Attorney General’s Office
- 12:00 pm **LUNCH BUFFET**
- 12:30 pm **FILM: SAN LUIS REY INDIAN WATER RIGHTS SETTLEMENT – “ONCE THERE WAS A RIVER”**  
Bo Mazzetti, President, San Luis Rey Indian Water Authority  
Anecita Agustinez, Tribal Policy Advisor, Department of Water Resources

- 1:30 pm **DESCRIPTION OF THE SAN LUIS REY INDIAN WATER RIGHTS SETTLEMENT**  
MODERATOR – Susan Cottingham, Consultant, Western States Water Council  
Robert Pelcyger, Counsel, San Luis Rey Indian Water Authority  
John Carter, Counsel, Vista Irrigation District  
Chris McKinney, Director of Utilities, City of Escondido  
Joe Vanderhorst, Assist. General Counsel, Metropolitan Water District of So. California  
Christopher Watson, Attorney, Division of Water Resources, Office of the Solicitor
- 3:00 pm **FIELD TRIP**
- 5:00 pm **DINNER**

---

**THURSDAY, AUGUST 15, 2019**

---

*Invocation by Invitation*

- 8:00 am **SETTLEMENT IMPLEMENTATION: IMPACTS OF POLICY CHANGES**  
Shalee Russette, Project Manager, Chippewa Cree Construction Corp  
Deon Stockert, Client Program Leader, Advanced Engineering and Environmental Services
- 9:00 am **SETTLEMENT LEGISLATION: GETTING BILLS THROUGH CONGRESS**  
**Congressional Outlook for Indian Water Rights Settlements**  
Brandon Ashley, Majority Deputy Staff Director, Senate Committee on Indian Affairs  
Josh Mahan, Minority Counsel, Senate Committee on Indian Affairs  
Matthew Muirragui, Majority Staff Director, Subcommittee on Water, Oceans and Wildlife,  
House Natural Resources Committee
- 10:45 am Break
- 11:00 am **Response Panel**  
MODERATOR – Jay Weiner, Assistant Attorney General, Montana Department of Justice  
Tracy Goodluck, Deputy Director, Secretary’s Indian Water Rights Office, Department  
of the Interior  
Stanley Pollack, Contract Attorney, Navajo Nation  
Kenneth Slowinski, Chief Counsel, Arizona Department of Water Resources
- 12:15 am **WRAP-UP/SUMMARY**  
Tony Willardson, Executive Director, Western States Water Council
- 12:45 pm Adjourn

# **SAN LUIS REY INDIAN WATER RIGHTS SETTLEMENT**

## **Background**

The La Jolla, Rincon, San Pasqual, Pauma and Pala Indian Reservations (reservations) were established along and in the vicinity of the San Luis Rey River in northern San Diego County pursuant to the Mission Indian Relief Act, 26 Stat. 712 (1891) (MIRA). MIRA was enacted 17 years before the Supreme Court's decision in Winters v. United States, 207 U.S. 564 (1908). The five reservations were established shortly after MIRA took effect.

One of the MIRA's express purposes was to protect the water available for the use and benefit of the Mission Indians in Southern California from being diverted away from their reservations. MIRA's legislative history is replete with descriptions of Mission Indian communities being driven from the land they were cultivating by settlers who flocked to California following the 1848 Treaty of Guadalupe Hidalgo and the ensuing Gold Rush. MIRA section 8 imposed measures intended to insure the continued availability of water for use on their reservations.

The ink was hardly dry on the documents establishing the reservations when the Interior Department approved the first of several rights-of-way and other authorities for diverting water from the San Luis Rey River and its watershed through and away from the reservations. During the ensuing 60 years, numerous acts and omissions of the Interior Department and the Federal Power Commission, which later became the Federal Energy Regulatory Commission (FERC), resulted in approximately 90% of the divertible flow of the San Luis Rey River being conveyed out of the watershed to the communities of Escondido and Vista.

The effect of these acts and omissions was that the federal government had given away the same water twice, first to the La Jolla, Rincon, San Pasqual, Pauma and Pala Bands of Mission Indians (Bands) when their reservations were established and, shortly thereafter, when the government authorized the diversion of that water away from the reservations and out of the watershed to the communities of Escondido and Vista.

Commencing in 1969, the five Bands and the United States initiated litigation before FERC and the federal district court in San Diego to determine who was entitled to use the waters of the San Luis Rey River. Following 15 years of litigation, the Supreme Court issued a split decision in 1984. The practical result of the Supreme Court's decision was that the parties would have to go back to court and start all over again with no end in sight. At that point, the parties, including the United States, concluded that a negotiated, congressionally approved settlement provided the best opportunity for a reasonable and timely settlement.

## **The Settlement Act**

In 1989, with strong Administration and bipartisan support, Congress enacted the San Luis Rey Indian Water Rights Settlement Act, 102 Stat. 4000 (Settlement Act). Congress found that the San Luis Rey River was "inadequate to supply the needs" of the five reservations, Escondido and Vista and the Bands had reached an agreement in principle under which "a comprehensive settlement would achieved," the "Bands' claims would be fairly and justly resolved," "the Federal Government's trust responsibility to the Bands would be fulfilled," Escondido, Vista and the Bands "would make fair and reasonable contributions," and that "the United States should contribute to the settlement by providing and delivery of water from a supplemental source."

The Settlement Act authorized and directed the Secretary of the Interior to arrange for the development of 16,000 acre-feet of supplemental water from an unspecified source for the use and benefit of the five Bands, Escondido and Vista. Congress also authorized the appropriation of \$30 million for use by the San Luis Rey Indian Water Authority and for economic development of the reservations. The money was appropriated and deposited in an interest bearing Treasury account in 1990.

### **Implementation of the Settlement**

#### **1. Development of the Supplemental Water**

The first settlement task was to arrange for the development and delivery of the 16,000 acre-feet of supplemental water. That was not easy. In 2000, eleven years after enacting the Settlement Act, Congress amended it by directing the Secretary of the Interior to fulfill his trust responsibility to the Bands by permanently furnishing 16,000 acre-feet of the water conserved by the project to line the unlined portions of the All American Canal and its Coachella Branch. It took another 3 years, until 2003, to negotiate and sign agreements providing for the lining of the canals and for delivering the 16,000 acre-feet to northern San Diego County. The first supplemental water became available in 2006.

#### **2. Negotiating the Settlement Agreements**

Section 106(c) of the 1988 Settlement Act states that the supplemental water “shall be provided for the Bands on their reservations[s] and [Escondido and Vista] in their service areas pursuant to the terms of the settlement agreement...” Nevertheless, for the first time in 2004, the United States maintained that the Bands should be restricted to using supplemental water and should relinquish their reserved rights to San Luis Rey water. That made no sense for many reasons, including that four of the five Bands were entirely dependent on their reserved rights to local San Luis Rey water for domestic, agricultural and business uses on their reservations, that very expensive and unnecessary new infrastructure would be required to deliver supplemental water to the reservations, and that supplemental water could readily be delivered to Escondido and Vista through existing pipelines. Resolving that dispute with the government took another twelve years and eventually required a compromise carefully crafted by Deputy Interior Secretary Mike Connor and its enactment as an amendment to the 1988 Settlement Act. The amendment was included as Section 3605 of the Water Infrastructure Improvements for the Nation (WINN) Act enacted in December of 2016.

The 2016 WINN amendment approved and ratified settlement agreements under which the Bands, Escondido and Vista agreed to share and use the local San Luis Rey water and the imported supplemental water. The amendment recognized that “the Bands, had, have and continue to possess federal reserved rights and other [San Luis Rey] water rights held in trust by the United States.” It also states that the United States in its capacity as trustee for those rights “shall not be a required party [in any judicial proceeding involving those rights] and that any decision by the United States regarding participation in any such proceeding shall not be subject to judicial review or give rise to any claim for relief against the United States.”

The practical effect of the 2016 WINN amendment is that it exempts the United States in its capacity as trustee from involuntary participation in a hypothetical future McCarran Amendment general stream adjudication of the rights to the waters in the San Luis Rey watershed. The Bands reluctantly agreed to this unique provision for four reasons: (i) the United States insisted on including it; (ii) the Bands believed that a general stream adjudication of San Luis Rey water rights is extremely unlikely; (iii) the Bands also believed that they would be fully capable of protecting and defending their reserved and other rights in the

very unlikely event that there would be such a future general stream adjudication; and (iv) the Bands were sick, tired and fed up with trying to persuade their extremely reluctant trustee to fulfill the federal government's fiduciary obligations.

### **Final Approval of the Settlement**

Pursuant to Section 104 of the Settlement Act, the Settlement Agreement and other settlement documents were approved by the federal district court and FERC in 2017. The settlement finally took effect on May 17, 2017, 48 years after the Federal District Court and FERC matters were initiated. The United States, the La Jolla, Rincon and San Pasqual Bands and the Federal District Court approved rights-of-way for the Escondido Canal and other facilities located on tribal and BLM land. FERC approved the continued operation of the Bear Valley Power Plant by Escondido and Vista as a conduit exemption under the Federal Power Act and relinquished jurisdiction over its previously licensed project. The Federal District Court retained continuing jurisdiction to interpret and enforce the provisions of the settlement that involve the United States.

### **Major Settlement Features**

1. When the settlement became effective, the Indian Water Authority received approximately \$100 million for its future operations and economic development of the five reservations from the funds previously appropriated by Congress and from the Metropolitan Water District of Southern California for the supplemental water it received before the settlement took effect in 2017.
2. The five Bands, Escondido and Vista have rights to share and use both San Luis Rey water and the supplemental water imported from the Colorado River on the Bands' reservations and Escondido's and Vista's service areas pursuant to the terms of the settlement.
3. Escondido and Vista continue to be responsible for operating, maintaining, repairing and replacing the facilities of the local water system.
4. Through a one-for-one exchange and/or cash, the Bands compensate Escondido and Vista for additional San Luis Rey water provided for use on their reservations.
5. The Bands pay the costs associated with conveying the 16,000 acre-feet of supplemental water from the Colorado River to northern San Diego County.
6. Escondido and Vista pay the Bands for the supplemental water delivered to them what they would otherwise pay the San Diego County Water Authority. For the 16,000 ace-feet of supplemental water delivered to Escondido and Vista in 2018, the Indian Water Authority received approximately \$15 million of net income. The amount of those payments is expected to increase as the price of imported water in Southern California continues to rise.
7. The Indian Water Authority makes periodic distributions of money to the Bands for economic development.

# LA JOLLA INDIAN CAMPGROUND

## **Symposium on the Settlement of Indian Reserved Water Rights Claims**

### **FIELD TRIP AND DINNER**

**August 14, 2019**

#### **Agenda**

**3:15, 3:45, 4:15 pm – Load Buses (Casino East Entrance)**

**3:40, 4:10, 4:40 pm – Arrive at Stop #1: Lake Henshaw**

*Lake Henshaw is a Reservoir in San Diego County, California at the southeast base of Palomar Mountain, approximately 70 miles northeast of San Diego and 100 miles southeast of Los Angeles. The lake covers approximately 1,140 acres and holds 55,000 acre feet of water when full (lowered in 1978 from its original capacity of 203,581 acre feet out of earthquake concerns), in addition to groundwater stored in its local basin. It drains an area of 207 square miles square miles at the source of the San Luis Rey River.*

**4:10, 4:40, 5:10 pm – Load Buses**

**4:40, 5:10, 5:30 pm – Arrive at Stop #2: La Jolla Indian Campground**

*The La Jolla Indian Campground is located on the south facing foothills of Palomar Mountain. The San Luis Rey River runs through the campground, which is also fed by natural springs.*

**5:00 pm – Dinner**

**6:00 pm – Performance by the Yawáywish Girls and the Tukwut Boys**

**7:00 pm and 7:45 pm – Buses Will Return to Harrah's Resort**

## Ad Hoc Group on Indian Water Rights Settlements

### Who We Are

Since 1981, the Western States Water Council (WSWC) and the Native American Rights Fund (NARF), working together with tribal representatives and other public and private experts, have participated in an Ad Hoc Group on Indian Water Rights Settlements.

### What We Do

We work to support the negotiated settlement of Indian water rights disputes. We believe there is a need to quantify Indian water rights, and that negotiated settlements are preferable to litigation as a means of quantifying those rights. We also believe that such settlements should be encouraged and facilitated by the federal government, both in terms of assisting in the negotiations as well as in providing appropriate funding for the implementation of settlements.

Over the years, a process has evolved with the help of the Ad Hoc Group that has contributed to the approval of 32 Indian water rights settlements. The WSWC and NARF also hold a biennial Symposium on the Settlement of Indian Reserved Water Rights Claims for experts to exchange information and advice regarding Indian water right settlements. The last symposium took place in August 2017 in Great Falls, Montana.

### Federal Trust Obligation

The federal obligation to fund settlements is analogous to, and no less serious than, the United States' obligation to pay judgments rendered against it. However, current budgetary pressures and legislative policies make it difficult for the Administration, the states, and the tribes to negotiate settlements knowing that they may not be funded.

We support federal funding, including a permanent funding source, to help ensure that settlements authorized by Congress and signed by the President will be implemented. We also believe that Congress should provide a budgetary mechanism to ensure that authorized settlements are funded without corresponding offsets to some other tribal or essential Interior Department program.

<p><b>Water Infrastructure Improvements for the Nation Act</b> Pub. L. 114-322, 130 Stat. 1628 (2016)</p>	<p>Blackfeet Nation  MONTANA</p>	<ul style="list-style-type: none"> <li>▪ Approves and ratifies the 2007 Water Rights Compact, entered into by the Blackfeet Nation and the State of Montana, and resolves the claims in <u>United States v. Ageson</u>, (filed April 5, 1979). Directs the Secretary of the Interior to execute and implement the Compact.</li> <li>▪ Confirms priority for Tribal water rights as 1855.</li> <li>▪ Quantifies irrigation, in-stream flow, and groundwater rights, with additional flow that may be diverted once state water rights are satisfied. Includes the following drainage basins: Birch Creek, Badger Creek, Two Medicine River, Cut Bank Creek, Milk River, St. Mary River, Lee Creek and Willow Creek. For some rivers, the quantification is all of the natural flow that exists absent human intervention. Also provides an allocation of stored water in Lake Elwell (Tiber Dam), water appurtenant to tribally-acquired state lands, and all naturally-occurring lakes, ponds, wetlands within the Reservation on trust lands and fee lands owned by the Tribe, its members, or allottees.</li> <li>▪ Protects certain tribal or state rights in various basins from priority calls from senior water users.</li> <li>▪ Closes certain basins and rivers to new applications for state appropriations, but allows for change in use and transfers under state law.</li> <li>▪ Provides for the administration of tribal water rights, including off-reservation leases that are limited to the Missouri River Basin; leases that permanently alienate water rights are prohibited.</li> <li>▪ Requires the tribe and state to report on existing water rights and all permitted and exempted water uses, with annual updates for new developments or changes in use of water rights, or changed owners.</li> <li>▪ Establishes the three-member Blackfeet-Montana Compact Board to resolve Compact controversies and appoint Water Commissioners as appropriate for day-to-day administration, including opening headgates</li> </ul>	<ul style="list-style-type: none"> <li>▪ Federal <ul style="list-style-type: none"> <li>- Total federal contribution \$420M</li> <li>- \$3.8M for studies on management and development of water supplies in the St. Mary and Milk River Basins, including dams and reservoirs</li> <li>- \$20.7M for the Swiftcurrent Creek bank stabilization project</li> <li>- \$3.1M for determinations of federal easements and rights-of-way necessary for the Milk River Project</li> <li>- \$500,000 for technical analysis, legal, and other related efforts to reach an agreement on the exercise of respective water rights between the Blackfeet Nation and the Fort Belknap Indian Community</li> <li>- \$40.9M for deferred maintenance and Four Horns Dam safety improvements, and \$14M for rehabilitation and construction of water delivery infrastructure, part of the Blackfeet Irrigation Project</li> <li>- \$76.2M for design and construction of an MR&amp;I System</li> <li>- \$87.3M for design and construction of water storage and irrigation facilities</li> <li>- In the Blackfeet Settlement Trust Fund, \$28.9M in the Administration and Energy Account, \$27.8M in the OM&amp;R Account, \$27.8M for the St. Mary Account, and \$91M for the Blackfeet Water, Storage, and Development Projects Account</li> </ul> </li> <li>▪ State <ul style="list-style-type: none"> <li>- Total state contribution \$49M, including \$20M for rehabilitation and construction of water delivery infrastructure</li> </ul> </li> </ul>

<p><b>Water Infrastructure Improvements for the Nation Act</b> Pub. L. 114-322, 130 Stat. 1628 (2016)</p>	<p>Choctaw Nation of Oklahoma and Chickasaw Nation</p> <p>OKLAHOMA</p>	<ul style="list-style-type: none"> <li>▪ The Act confirms the water rights settlement between the Choctaw and Chickasaw Nations, Oklahoma, and Oklahoma City.</li> <li>▪ The settlement resolves long-standing questions and multiple court actions over water rights ownership and regulatory authority over the Choctaw and Chickasaw Nations’ historic treaty territories, particularly water use conflicts over Sardis Lake and the Kiamichi Basin. It also preserves and confirms existing water rights uses.</li> <li>▪ Allottees are authorized to divert 6 afy of surface water per 160 acres and 5 afy of groundwater, without state permits and for domestic use only.</li> <li>▪ Each Nation has the right to appropriate 500 afy per hydrologic basin on Trust Lands for future development. The Choctaw Nation may develop an impoundment up to 150 acres that can impound up to 1,500 acre-feet, with the right to offset evaporative losses up to 500 afy.</li> <li>▪ The Act authorizes Interior to approve conveyance of an easement from the Chickasaw Nation to Oklahoma City; the City will pay the Nation for the value of past unauthorized use and consideration for future use of the land burdened by the easement, to construct and maintain water conveyance infrastructure for municipal use.</li> <li>▪ Oklahoma remains the exclusive regulator and administrator of water resources, and the Nations and Allottees may apply for additional water rights through the Oklahoma Water Resources Board. The settlement provides a framework to foster intergovernmental cooperation, ensuring that the Nations have a voice with regard to transfers of water within their historic treaty territories.</li> <li>▪ Lake release restrictions allow measured municipal supply while managing Lake levels to support critical recreation, fish and wildlife uses.</li> </ul>	<ul style="list-style-type: none"> <li>▪ Federal <ul style="list-style-type: none"> <li>- Annual payments waived for Sardis Lake future use storage operation, maintenance and replacement costs, capital costs, or interest, unless and until the future use storage is activated.</li> </ul> </li> <li>▪ State, City, Nations <ul style="list-style-type: none"> <li>- Total contributions to the Atoka and Sardis Conservation Projects Fund \$10M</li> <li>- Oklahoma City \$5M contribution, of which \$2.5M would have been monies otherwise due to the State under the Storage Contract Transfer Agreement</li> <li>- Nations \$5M contribution, with the Choctaw Nation paying 75% and the Chickasaw Nation paying 25%</li> </ul> </li> </ul>
<p><b>Water Infrastructure Improvements for the Nation Act</b> Pub. L. 114-322, 130 Stat. 1628 (2016)</p>	<p>Pechanga Band of Luiseño Mission Indians</p> <p>CALIFORNIA</p>	<ul style="list-style-type: none"> <li>▪ The Act confirms the water rights settlement between the Pechanga Band, the Rancho California Water District (RCWD), and the United States, and resolves certain claims in <u>United States v. Fallbrook Public Utility District et al.</u>, (3:51-cv-1247, S.D.C.A.)</li> <li>▪ The agreement quantifies the Pechanga water right from the 1966 Fallbrook Decree to be 4,994 acre-feet per year. This amount includes allocations of water to tribal allottees.</li> <li>▪ The agreement includes joint management of groundwater pumping in the Wolf Valley Basin, with RCWD entitled to 25% of safe yield, and Pechanga entitled to 75%. The safe yield is initially determined to be 2,100 afy from an 8,000 afy aquifer capacity. They are authorized to cooperatively develop groundwater desalination activities.</li> <li>▪ The Act also authorizes efforts to enhance the capacity for water delivery from the Metropolitan and Eastern Municipal Water Districts, expanding their service areas to include parts of the Pechanga Reservation and constructing water delivery infrastructure.</li> </ul>	<ul style="list-style-type: none"> <li>▪ Federal <ul style="list-style-type: none"> <li>- Total federal contribution \$28.5M</li> <li>- \$2.7M for Pechanga’s share of design and construction costs of a storage pond that enables the delivery of recycled water</li> <li>- \$17.9M for the ESAA Delivery Capacity Account for design and construction costs of infrastructure required for water delivery</li> <li>- \$5.5M for the Pechanga Water Fund Account to pay for connection fees and delivery of water from the Metropolitan and Eastern Municipal Water Districts</li> <li>- \$2.5M for Wolf Valley Basin groundwater desalination activities</li> </ul> </li> </ul>

**Abbreviations:**

- afa: acre-feet per annum
- afy: acre-feet per year
- CAP: Central Arizona Project
- M&I: Municipal and Industrial
- OM&R: Ongoing Maintenance and Repair

# **CONTINUING LEGAL EDUCATION (CLE)**

Attorneys admitted to the State Bar of California who attend all segments of the Symposium may count 14 hours of Continuing Legal Education credits (no ethics hours). Those who attend only a portion of the Symposium may claim a lesser amount. For credit, please sign in each day at the Symposium registration desk, and keep the attached Certificate of Attendance for your records.

Attorneys admitted in other states generally must submit the Symposium agenda, written materials, certificate of attendance, and a completed application form to their respective State Bar Associations for accreditation. The total number of hours awarded by the respective states may differ. An application fee may also be required.

Please contact Michelle Bushman, Legal Counsel, Western States Water Council, [mbushman@wswc.utah.gov](mailto:mbushman@wswc.utah.gov), if you need a copy of the sign in sheets with your signatures for credit in your state.

# CERTIFICATE OF ATTENDANCE

**Sponsors:** Western States Water Council/Native American Rights Fund

**Course Title:** Symposium on the Settlement of Indian Reserved Water Rights Claims

**Date:** August 13-15, 2019

**Location:** Funner, California

In its entirety, this program has been accredited by the California Bar for 14 CLE credit hours based on 60 minutes of instruction per hour. Of this total, 0 hours are devoted to instruction in ethics.

Name of Attendee: \_\_\_\_\_ State: \_\_\_\_\_

Bar #: \_\_\_\_\_

## Sessions attended:

- Western Water Law and Indian Reserved Water Rights: A Primer (1)
- Keynote Address (0.5)

### Negotiation of Indian Water Rights Claims: The Basics

- Gathering Background Information & the Role of Technicians in Negotiations (1.5)
- Identifying Parties & Issues & How Negotiations Bind Larger Groups (1.5)

- Water Planning: Scarcity and Collaboration (1.5)
- Plenary Speaker (1)

### The Administration's Settlement Policy

- Administration Presentation (1.5)
- Response Panel (1)
  
- Description of the San Luis Rey Tribe's Water Rights Settlement (1)
- Settlement Implementation: Impacts of Policy Changes (1)

### Settlement Legislation: Getting Bills through Congress

- Congressional Outlook for Indian Water Rights Settlements (1.5)
- Response Panel (1)

- 
- I attended the entire course as set forth above.
  - I did not attend the entire course. Sessions attended are indicated above.
